Works of Art: 5 Residential Buildings with Stunning Sculptures and Art Installations

#2: Pierce Boston in Boston: Art Installation by Alexandre da Cunha

Samuels and Associates: Pierce Boston in Boston: Art Installation by Alexandre da Cunha

Currently under construction and on track to be completed next year, the 30-story Pierce Boston project will feature 240 apartments, 109 condos, and a permanent public art installation created by Brazilian artist Alexandre da Cunha. Known for repurposing ordinary materials, da Cunha created three imposing concrete discs that will be situated on the pavement in front of the glass-sheathed giant.
